5 inch	125 NB	Heavy applications
6 inch	150 NB	Industrial systems
8 inch and above	200 NB+	Large industrial requirements

Price Factors

MS square pipe pricing depends mainly on outside dimensions, wall thickness, steel grade, manufacturing process, order quantity, delivery location, freight, taxes and current steel-market rates. When comparing quotations, confirm whether the price is per metre or per kilogram and whether GST and freight are included.
